

How to Get Health Insurance in Georgia

My **employer** provides health insurance benefits.

Employer-based health insurance

Coverage provided to employees and their families through their employer. Talk to your employer about what is available to you.

TRICARE

Coverage provided to individuals in the military (or otherwise eligible) and their family members. TRICARE is similar to employer-based health insurance with very specific rules. Visit [tricare.mil](https://www.tricare.mil) for more information.

I would like **government** assistance.

Medicaid

Coverage for low-income individuals in Georgia who meet specific eligibility criteria. Visit [medicaid.georgia.gov](https://www.medicaid.georgia.gov) to see if you are eligible.

Medicare

Coverage for people age 65 and older, or people with conditions such as disabilities, permanent kidney failure or amyotrophic lateral sclerosis (ALS). Visit [medicare.gov](https://www.medicare.gov) to see if you are eligible.

Children's Health Insurance Program (CHIP)

Through PeachCare for Kids®, CHIP provides health coverage to uninsured children in families with incomes too high to qualify for Medicaid, but too low to afford an individual plan. Visit [georgiahealthcoverage.org](https://www.georgiahealthcoverage.org) to see if your child is eligible.

I want to buy my own **individual** plan.

Marketplace

Georgia Access is the state's government-run platform to help residents compare health insurance plans and costs. Visit [georgiaaccess.gov](https://www.georgiaaccess.gov) for more information.

Private

Private plans may be purchased directly from health insurance companies, agents or other online marketplaces.
